-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 February 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 3 and 5-7 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's arguments filed 2/30/07, with respect to previous Final Rejection dated 8/22/06 have been fully considered and are persuasive. The previous office action has been withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Utsumi et al (US 5,636,267).

Regarding claim 3, Utsumi teaches a communication device (figure 1, shows a personal computer- col. 4, lines 58-60) having a speed dial function (although Utsumi does not specifically disclose a "speed dial function", Utsumi discloses a CPU processing calls from a list, therefore speeding up the dialing process), including the steps of storing a plurality of telephone numbers in the device in a list of numbers to be dialed (col. 5, lines 6-10) and entering an abbreviated command to sequence through the list to dial each stored number (col. 4, lines 14-20,

Art Unit: 2618

Utsumi teaches a "call command" at step 100) and automatically deleting a number from the list after a call to that number has been completed (abstract and col. 1, lines 52-57).

Regarding claim 5, Utsumi teaches the step of leaving a number on the list for later recall if the call to that number could not be completed at the time it was dialed (col. 5, lines 26-64).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Utsumi et al (US 5,636,267).

Regarding claims 6 and 7, Utsumi fails to specifically disclose the abbreviated command either entered manually or spoken by a user (although it should be noted that Utsumi does disclose a call command). Official notice is taken that it is well known in the art to use call commands in either manual or spoken entry methods.

Therefore it would have been obvious to one of ordinary skill in the art at the time the invention was made to either use manual or user spoken redial entry with Utsumi's cleaning method/system for telephone number list in order to provide the computer user of Utsumi with a wide array of call entry sequences.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
